Payment Gateway Integration (Stripe, Razorpay, PayU), Webhooks, Shipway API, REST APIs

Tools & Concepts

SEO Optimization, Website Performance Optimization, Cron Jobs, ORM, Role-Based Access Control (RBAC), Responsive Design, Git

EXPERIENCE

Full Stack Web Developer

Nexgeno Technology | Jan 2023 – Present

- Developed responsive landing pages, business websites, and CMS-based applications using HTML, CSS, JavaScript, jQuery, Bootstrap, and WordPress
- Worked on WordPress websites using Elementor, plugins, custom themes, and custom plugin development
- Built interactive and animation-rich websites using GSAP and scroll-based frontend experiences
- Developed web applications using **PHP, Laravel, CodeIgniter, and Yii Framework** with ORM architecture
- Built HRMS and role-based permission systems with employee management workflows
- Integrated attendance/time punching machine APIs into HRMS applications
- Developed CRM and property management systems using Laravel

- Integrated payment gateways including Stripe, Razorpay, and PayU with webhook handling
 - Integrated Shipway API for e-commerce shipment and order tracking workflows
 - Developed automated cron job features for dynamic product/quotation price updates
 - Improved website SEO and performance using Google PageSpeed Insights and GTmetrix
 - Optimized application performance through query optimization, asset minification, lazy loading, image compression, and WebP implementation
 - Integrated third-party APIs including postcode, country, state, and city data services across multiple applications
 - Collaborated with teams and clients for feature development, testing, debugging, and deployment
-

EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT)

Mumbai University | 2021 | CGPA: 7.17
